Customer Profile

Canyon Ranch Resort

Company Information: Canyon Ranch is an all-inclusive Health Resort & Luxury Spa in Tucson, Arizona with 2 pools and 4 spas.

URL: www.canyonranch.com/tucson

Address: 8600 E Rockcliff Rd, Tucson, AZ 85750

Phone: 520-749-9000

Contacts: Roy Welch, Lead Pool Technician

The Experience: Canyon Ranch Resort has been using E-Z POOL, REVIVE!, and EZ SPA in their commercial pools and spas for over the past three years. Canyon Ranch's Lead Pool Technician, Roy Welch, can't say enough about how their water has improved since starting API's commercial program.

E-Z POOL is applied twice-a-week in the resort's two saltwater pools (115,000 and 55,000 gallons). Roy states that not only has E-Z POOL improved the water quality it has also extend the life of their salt cells by at least 6 months to a year or better with no more scale build-up, staining, or corrosion. EZ SPA is applied twice-a-week in the resort's four spas ranging from 15,000 to 8,500 gallons. The largest spa sees over 200 people a day and EZ SPA helps to keep the water clean.

After their tremendous success with APi products at their Tucson location, Canyon Ranch Resort plans to use our products at their Miami Beach location.

See the Canyon Ranch Resort interview for details on the experience.
