EZ3[®] is the perfect startup/maintenance kit for every spa.

Or:

The simple, once-a-week solution to spa water care.

- 1) No foam. No odor. No confusion.
- 2) No need to drain
- 3) Save time, money and frustration
- 4) Pre-measured scoop eliminates guesswork

EZ3 SPA CARE KIT is the perfect water care program that combines simplicity and incredible water quality in a once-a-week application.

This specially formulated system manages spa water while eliminating the confusion of adding multiple chemicals every other day.

EZ3 contains a clarifier, stable oxidizer, scale inhibitor, water conditioner and balancers (pH, TA and CH) to keep spa water clean, clear and trouble free.

Spa water treated with EZ3 is scale and foam free. The concentrated formula creates a PROACTIVE water care program that prevents problems instead of treating them on a REACTIVE basis.

- Convenient and easy to use - just once a week!
- Superior water quality with less chemicals and testing
- Formulated for use with chlorine, bromine, salt, ozone and mineral purifiers

EZ3 provides the simplest and most convenient solution to spa water care.

EZ SPA TOTAL CARE[®]

A multi-function, granular blend that contains a clarifier, stable oxidizer, scale inhibitor, water conditioner and balancers (pH, TA and CH) while inhibiting foam – all in one bottle! Use with E-Z BOOST™ just once-a-week.

E-Z BOOST™

This fast dissolving granular formula sanitizes and disinfects spa water and is part of the EZ SPA once-a-week water care program.

START™

Use at startup and each time the spa is filled, START treats the source water by removing metals, phosphates, scaling carbonates and organic debris to keep the water clear and stain/scale free.
