

EZPRO™

Commercial Water Care Products

Why APi?

- Experience
- Reliability
- Simplicity
- Quality

Experience

20 years of industry experience serving retail, service and commercial customers nationwide.

Simplicity

Use EZPRO™ to substantially reduce time and expense associated with maintaining and troubleshooting your customers' pool and spa water. EZPRO™ is formulated to make the operator's job quick and easy.

Reliability

Our reputation is built on "always being there when you need us!" You can count on our experienced and well-trained professional staff to provide solutions for all of your pool and spa water needs.

Quality

The proprietary products in the EZPRO™ commercial line are designed to provide the best water quality for swimmers/ bathers. The water is clear, soft, and odor free... without exception!

EZPRO™

Lineup

EZPoolPRO™ provides simplicity with incredible water quality. EZPoolPRO contains a stable oxidizer, proprietary algae shield formula, water balancers, and scale build-up inhibitors that clarifies and conditions to provide soft, sparkling clear, oxygen rich swimming water!

RevivePRO™ is designed to remove phosphates, metals including copper and iron, scaling carbonates, organic debris and other contaminants that cause troubled water. RevivePRO is formulated for use on new pool start-ups, re-plaster/remodel/refills, spring openings, severe algae cleanups, and routine maintenance. Crystal clear, swim-ready water with a **NO ALGAE GUARANTEE®** when used with EZPoolPRO™.

PepperPRO™ is formulated to work with the unique demands of salt water pools. Benefits of using PepperPRO include enhanced water quality, maintenance of low phosphate levels, improvement of sanitizer effectiveness, pool equipment protection, chlorine generator life extension.

ENZymePRO™ works to eliminate the constant use of toxic chemicals, algaecides, filter cleaners, clarifiers, pool cleaners, and shock treatments. ENZymePRO contains natural enzymes which safely break down micro and organic contaminants.

EZSpaPRO™ manages and improves spa/hot tub water quality while eliminating the challenges that come with heavy bather load. EZSpaPRO does not require additional cyanuric acid, and there is no wait time for spa users to get in and enjoy superior oxygen rich water.

Certified to
NSF/ANSI Standard 50

EZPRO™ Commercial Products are all Certified to NSF/ANSI Standard 50.

EZPoolPRO™

Concentrated Pool Blend

EZPoolPRO™ is a proprietary product that combines simplicity with incredible water quality. EZPoolPRO is designed to provide a Proactive water care program that prevents problems instead of treating them on a Reactive basis after they occur.

EZPoolPRO contains a stable oxidizer, algae shield, clarifier, scale inhibitor, water conditioner and balancers (pH, Total Alkalinity, and Calcium Hardness) to keep swimming pool water clean, clear and trouble free. EZPoolPRO does not require additional cyanuric acid and helps to maintain low CYA readings.

- NO WAITING TO SWIM
- Stable oxidizer immediately breaks down water borne contaminants to increase sanitizer effectiveness, resulting in clean, clear, oxygen rich water
- Proprietary Algae Shield formula becomes more effective the longer E-Z POOL is used-NO ALGAE GUARANTEE®
- E-Z POOL inhibits scale build up and metallic staining on pool surfaces and equipment
- E-Z POOL clarifies and conditions to provide sparkling clear water that is soft to swim in without leaving any harsh chemical

residue on bather's skin, hair, or bathing suits

- Uniquely blended formula creates a stable and balanced pool water environment, virtually eliminating chloramines, excessive testing and unnecessary chemical additions.

RevivePRO™

RevivePRO™ is a multi-action product that removes phosphates, metals including copper and iron, scaling carbonates, organic debris and other contaminants that cause turbidity in pool water.

RevivePRO is formulated to be compatible with any pool sanitizer, chemical, or finish. It is very effective for use on new pool start-ups, replaster/remodel jobs, refills, spring openings, severe algae

clean-ups, and for routine maintenance of all swimming pools.

- NO WAITING TO SWIM
- Reduces plaster dust on new pools and remodels
- Maintains low phosphate levels with no clarity issue
- Removes metals
- Prevents scale buildup on system equipment

- Protects pool surfaces from staining
- Effective in high chlorine conditions
- Clear, soft and swim ready
- Activates NO ALGAE GUARANTEE® when used with EZPoolPRO™

PepperPRC™

PepperPRO™ is a proprietary product formulated to work specifically with the unique demands of salt water pools. Adding PepperPRO to the pool will enhance water quality, reduce corrosion, protect pool equipment and simplify overall maintenance.

- NO WAITING TO SWIM
- Extend the life of the chlorine generator
- Improve sanitize effectiveness
- Greatly enhance water clarity
- Limit troublesome pH fluctuations

- Prevent scale buildup on the generator cell, pool equipment and surfaces
- Help maintain low phosphate levels

ENZymePRC™

ENZymePRO™ contains natural enzymes which safely break down micro and organic contaminants: oils, sunscreen lotions that cause waterlines. Helps control organic stains, petroleum based products, water molds and cloudy water. Uniquely formulated to keep filters (cartridge or sand) free from debris and working to maximum efficacy.

ENZymePRO is designed as a reducing agent that helps eliminate the constant use of

toxic chemicals: algaecides, filter cleaners, clarifiers, pool cleaners and the need to constantly shock water when used as directed. Works in conjunction with chlorine or bromine and alternative sanitation systems.

- NO WAITING TO SWIM
- Breaks down organic waste
- Increases sanitizer efficiency
- Breaks down oils for cleaner tile lines and equipment

- Reduces time between filter cleanings and lengthens filter life
- Manages biofilm accumulation
- Softens water which contributes to bather comfort
- Reduces ancillary chemical use
- Non-Toxic, biodegradable, and environmentally safe

EZSpaPRC™

EZSpaPRO™ is a proprietary water care program that combines simplicity with incredible water quality.

EZSpaPRO is formulated for use in any spa/hot tub and will help manage water quality while eliminating the challenges associated with heavy bather load.

EZSpaPRO contains a stable oxidizer, defoamer, clarifier,

scale inhibitor, water conditioner and balancers (pH, Total Alkalinity, and Calcium Hardness) to keep spa water clean, clear and trouble free.

EZSpaPRO does not require additional cyanuric acid.

- NO WAITING TO SWIM
- Convenient and easy to use
- Superior water quality with less chemicals and testing

- Formulated for use with chlorine, bromine, salt, ozone and mineral purifiers
- Substantially reduces chloramines
- Stable oxidizer immediately breaks down water borne contaminants to increase sanitizer effectiveness—resulting in clean, clear, oxygen enriched water

APi is committed to providing the highest standard of customer service in the industry. Our goal is 100% customer satisfaction.

To accomplish this goal, we must, without exception, always strive to meet or exceed our customers' expectations.
