FOR THE POOL

E-Z POOL®

A specially blended, multi-tasking formula for proactively managing swimming pool water while eliminating the confusion and inconvenience of adding multiple chemicals on a continuous basis. It contains a stable oxidizer, algae shield, clarifier, scale inhibitor, water conditioner and balancers (pH, Total Alkalinity, and Calcium Hardness) to keep swimming pool water clean, clear and trouble-free.

PEPPER®

A special blend of select ingredients formulated to work specifically with the unique demands of salt water pools. Use PEPPER regularly to increase the life and performance of the salt water generator, improve sanitizer effectiveness, greatly enhance water clarity, limit troublesome pH fluctuations, help maintain low phosphate levels and prevent scale buildup on the generator cell, pool equipment and surfaces.

REVIVE!®

A multi-action product that removes phosphates (algae food), metals including copper and iron, scaling carbonates, organic debris and other contaminants that cause troubled water. It is formulated for use on new pool startups, replaster/remodel/refills, spring openings, abandoned pools, severe algae cleanups and ongoing maintenance of all swimming pools.

REVEAL®

A fast acting clarifier that eliminates dull cloudy water and helps reduce total dissolve solids (TDS) without affecting balance levels and without decreasing filter life. This concentrated formula works with the pool filter to remove dirt, debris and other suspended particles.

CLOUD OUT™

A specially blended formula clears cloudy water fast without affecting water balance. CLOUD OUT is especially effective in removing pink, white and clear deposits in all swimming pools without closing the pool.

FLIP OUT™

Quickly and easily convert biguanide (Baquacil®, SoftSwim®, and Revacil®) pools back to traditional sanitizers without draining or shutting down the pool. Swimming pool water remains clear and safe to swim during the conversion.

FOR THE SPA

EZ SPA® is a specially blended formula for managing spa water while eliminating the confusion of adding multiple chemicals every other day. It contains a clarifier, stable oxidizer, scale and stain inhibitor, water conditioner, and balancers (pH, TA and CH) to keep spa water clean, clear and trouble-free.

EZ3 SPA Care Kit is the perfect startup/maintenance kit. Just pre-balance water and enjoy EZ3, the simple and convenient solution when your customer demands clean, clear & trouble-free spa water.

EZ SPA Support Products

A complete line of balancers make the conversion to EZ SPA simple and EZ!
