Contacts: Christian Freebairn, Owner

Scott Offill, Owner

Mary Lane, Administrative Assistant

**The Experience:** Since starting E-Z POOL and REVIVE! in 2010, The Pool Boys' pools have experienced improved water quality with fewer chemicals and no algae throughout the season. They currently manage over 100 residential pools and one HOA pool of 45,000 gallons that they visit twice-a-week.

After the HOA struggled for years with their pool and even had to shut it down several times, half of the board members were fed up and just wanted to fill the pool in. But thankfully the other half was willing to give E-Z POOL a try and they are so glad they did! They haven't had a problem since and now the home owners enjoy their pool without any downtime!

The HOA pool has now been on E-Z POOL since May 2010 and has passed all their pool inspections every time, which in return has put The Pool Boys on good terms with the local health inspectors. And on top of it all, thanks to the money they saved in 2010 with E-Z POOL, the HOA was able to afford to renovate their pool in 2011!

After the tremendous success with this HOA pool, The Pool Boys have been commissioned to maintain another HOA pool and hope to do more.

See The Pool Boys' interview for details on the experience.
