

SPA CARE KIT

The simple solution to incredible water quality

■ *Less Chemicals* ■ *Less Testing* ■ *Less Hassle*

Included in Each Kit:

START®

Prepares spa water by removing phosphates, metal, carbonates & other debris.
(8 oz)

TOTAL CARE®

Enhances your spa with clarifier, stable oxidizer, scale inhibitor & balancers. Keeps spa water clean, clear & trouble-free.
(1 lb)

EZymePRO®

Breaks down cosmetics, grime, & body oils left behind by bathers.
(8 oz)

Compatible with:

Chlorine / Bromine

Mineral/UV-Ozone

Salt Water & More

EZ SPA® is a water care program that combines simplicity and incredible water quality. This program manages spa water and eliminates the confusion of treating with additional chemicals multiple times a week.

- **Convenient and easy to use —just once-a-week!**
- **Superior water quality with less hassle and testing!**
- **Compatible with all forms of chlorine, bromine, salt, ozone, & mineral purifiers**

The EZ3 Program

IMPORTANT: Start fresh (drain and clean spa & filter(s)).

BALANCE SPA AS FOLLOWS:

Total Alkalinity 80-120 ppm | pH 7.2-7.6 | Calcium Hardness 300-400ppm

STARTUP:

1. Add START at a dosage of 4 oz per ≤ 500 gallons.
2. Add EZymePRO at a dosage of 2 oz per ≤ 500 gallons.
3. Add TOTAL CARE at a dosage of 1 oz (cap full) per 100 gallons.
4. Add the sanitizer of your choice to achieve a 0.5-2.0ppm reading.
5. After 12 hours, rinse the filter cartridge

WEEKLY:

1. Add EZymePRO at a dosage of 1 oz per ≤ 500 gallons.
2. Add TOTAL CARE at a dosage of 1 oz (cap full) per 100 gallons. Spas using ozone, mineral purifier, or salt add ½ oz per 100 gallons.
3. Add the sanitizer of your choice to achieve a 0.5-2.0ppm reading. Always follow local guidelines for recommended sanitizer level.

For best results, filter at least 8 hours daily & while adding chemicals.

SPA CARE KIT

The simple solution to incredible water quality

■ Less Chemicals ■ Less Testing ■ Less Hassle

The EZSPA program allows spa owners to use the sanitizer of their choosing alongside the EZ3 Spa Care Kit and take TOTAL CARE of their spa or hot tub!

Below are approximate weekly dosage rates for a typical sized spa or hot tub (up to ~500 gallons)*

Chlorine Sanitizers

<i>Sodium Hypochlorite (12%)</i>	<i>5 oz— 10 tablespoons</i>
<i>Calcium Hypochlorite (68%)</i>	<i>1 oz — 2 tablespoons</i>
<i>Dichlor (56%)</i>	<i>1 oz — 2 tablespoons</i>
<i>Trichlor 1" Tabs (90%)</i>	<i>1 oz — (2) 1" tablets</i>

Bromine Sanitizers

<i>Granular Bromine</i>	<i>1 oz — 2 tablespoons</i>
<i>Bromine 1" Tabs</i>	<i>1 oz — (2) 1" tablets</i>

Suggested dosage amounts for chlorine and bromine sanitizers are estimated weekly amounts needed in conjunction with EZ3 Spa Care Kit. Due to variables inherent in all bodies of water it is advisable to test water, & ensure desired sanitizer residual is maintained.
