

# EASY SWIMMING POOL Startups

**STARTUP** New pool construction or renovation (fresh filling a pool)

**Dosage:** 32 oz. per 24,000 gallons

When initially filling add **Revive!**®, **Revive WEEKLY**® or **RevivePRO**® into the deep end. As the water rises, **Revive!** will treat the pool walls and source water resulting in clean, clear water after the initial fill. When filling is complete brush/vacuum pool and proceed with preferred startup care.

**Revive!** does the work of several products: Phosphate Remover, Metal Remover & Clarifier

- Ideal for well water
- Removes copper and iron
- Removes orthophosphates up to 2000 ppb
- Removal of scale causing carbonates
- Restores water quality
- Clears water of various debris
- Compatible with all pool chemicals, sanitizers and finishes
- Performs in chlorine up to 25 ppm
